STRATEGY & FINANCE

From Idea to Exit: Your CFO Partner at Every Stage

CFO services for start-ups and early-stage ventures: compliance and strategic priorities, stage by stage.

October 2026 · www.allnineservices.com

CFO support across the startup life cycle

Start-ups face different financial challenges at every stage. Some services are stage-specific, such as business model validation, cap table set-up, unit economics, fundraising support. Others run continuously: strategic financial planning (budgeting, forecasting, scenario planning, funding, valuation, exit) and compliance & reporting (statutory set-up, registrations, regulatory filings, governance, taxation and audit readiness).

The four broad phases: **ideation & set-up**, **fundraising & expansion**, **operational maturity**, then **sustainability & exit readiness**.

Value creation map

Risk and investor expectations climb with every stage. Strategic professional advisory is the key enabler in preventing value destruction across growth stages.

Stage	Operational risk	Financial complexity	Governance & compliance risk	Dilution & capital structure risk	Investor expectation
Idea	Low	Low	Low	Low	Concept clarity
Incorporation	Medium	Medium	Medium	Low	Structure
Early ops	High	Medium	Medium	Low	Survival

Traction	High	High	High	Medium	Metrics
Pre-fundraise	Very high	Very high	Very high	High	Clean data
Fundraise	Critical	Critical	Critical	Very high	Diligence-ready
Post-funding	Strategic	Advanced	Very high	High	Governance

What we do at each stage

Stage & outcome	Compliance priorities	Strategic priorities
Incorporation & set-up Compliance-ready foundation to mitigate risks	Entity structuring and incorporation, PAN, TAN and GST registration, statutory registers, compliance calendar set-up	Chart of accounts design, accounting system advisory, initial cash flow planning and reporting templates
Early operations Controlled burn and financial visibility	Bookkeeping, GST and TDS compliance, payroll processing, monthly financial statements	Burn rate tracking, cash runway modelling, cost optimisation and scenario planning
Traction & revenue scaling A metrics-driven growth story	Financial reporting, tax reporting, audit readiness, internal control systems	Cohort analysis, revenue and margin budgeting and forecasting, KPI development and tracking
Pre-fundraising readiness Investment-ready financial architecture	Due diligence readiness, cap table and ESOP restructuring, valuation, FEMA compliance	Investor-grade financial models, fund utilisation plan, valuation models, runway modelling
Fundraising execution An efficient raise with optimised dilution	Data room validation, financial compliance representations, term sheet review and share allotment filings	Investor query handling, dilution modelling, valuation negotiation scenarios, post-funding forecasts
Post-funding governance A scalable, governance-driven entity	Statutory audits, compliance monitoring, ESOP accounting and next-round readiness	Board reporting packs, monthly MIS dashboards, variance analysis, capital allocation modelling

Institutionalise your startup before investors ask you to

Governance, financial discipline and strategic planning lead to growth, capital and investor confidence. All Nine Services builds the resilient financial architecture your startup needs for sustainable growth, from idea to exit.
